

Hydradjust® IV Remanufactured Urology Table

World renowned for smooth and reliable hydraulic functions, these Liebel-Flarsheim Hydradjust® IV urology tables offer superior patient positioning and comfort. Thoroughly remanufactured by Huestis Medical, these durable tables deliver better-than-new performance. All Huestis Medical remanufactured systems are guaranteed to deliver performance and safety features that meet or exceed original manufacturer's specifications at about half the price of new! Custom matched to your specific needs, tables are offered stand-alone, with imaging chains or as complete suites, including generator and digital imaging systems.

Features:

Table Functions

- X-ray tube support can be stored out of the way during patient transfer
- Extensive table top travel provides complete diagnostic coverage in the lateral motion
- Extended longitudinal travel provides full coverage of the entire KUB tract
- Variable table top elevations enable easy patient transfer, performance of procedures from a sitting or standing position and adjustment for different ceiling heights
- Table top tilt positioning for TUR's, Cysto's, Uro Dynamics and various radiography procedures
- Audible tone and interrupted table motion signal with table horizontal
- Image tube/x-ray tube has longitudinal movement of 6.5 in
- Distributed weight up to 350 lbs

Table Function Controls

- Hydraulically-controlled table motions provide smooth and reliable service
- Hand switch controls table and tomographic functions
- Moisture-proof footswitch controls elevation and tilt to maintain patient's perineal area at eye level of urologist

Automatic Cassette Loader

- Works with all standard cassettes
- Includes selectable Ion Chamber exposure control

Uro Drain System

- Sterile, disposable, drain bag
- Collapsible for easy table access

Table Elevation Range (from table top)

- Low Position: 36 in (914 mm)
- High Position: 50 in (1270 mm)
- Speed of Travel: 1 in (25 mm)/sec

Table Tilt Range

- Trendelenberg: 20 degrees
- Reverse Trendelenberg: 90 degrees
- Speed of Travel: 5 degrees/sec

Longitudinal Table Top Travel

- Total Travel: 20 in (508 mm)
- Speed of Travel: 1-1/2 in (38 mm)/sec
- Lateral Table Top Travel ± 6 in (152 mm)
- Total Travel: 12 in (305 mm)
- Speed of Travel: 1-1/2 in (38 mm)/sec
- 0.62 in/sec. to 1.5 in/sec

Image Intensifier Adaptability

- Sizes up to: 16 in diameter (406 mm)
- Image distance: 4 in (102 mm) (from table top)
- 0.62 in/sec. to 1.5 in/sec

X-ray Tube Support Arm

- S.I.D.: 40 in (1016 mm)
- Oblique angle: ± 14 degrees

Electrical Supply

- 115 V 50/60 Hz
- 230 V 50/60 Hz
- 100 V 50/60 Hz
- Current: Approximately 10 amps at 115 V 60 Hz

Digital Imaging

At your fingertips optional new digital imaging system provides user-friendly, crisp fluoroscopic/spot imaging.

Hydradjust® IV Premier Remanufactured

Huestis Medical's uncompromising remanufacturing process begins with a full system tear down. Each mechanical and electronic component is then thoroughly tested, evaluated and refurbished functionally and cosmetically to exacting standards.

Custom matched to your specific needs, tables are offered stand alone, with imaging chains or as complete suites including generator

Special Features

Complete Table Tear Down

The Hydradjust® IV table is thoroughly stripped, cleaned and completely torn-down to expose and refurbish all working components.

Movable X-ray Tube Arm

X-ray tube support arm can be rotated out of the way during patient transfer for optimal patient safety.

Versatile Options

Custom Imaging Chain

Contact Huestis Medical for specific recommendations on imaging options available to complement your system.

Full Mechanical/Electronic

Testing: All electronic and mechanical components are fully inspected and refurbished or replaced to meet or exceed original manufacturer's specifications.

Collapsible Drainage

System Sterile, disposable drain bag system is collapsible, providing full table access. Stainless drain pan also available.

Leg Supports

Easily pivoting supports with locking ratchet arms offer superior patient comfort.
