

***Huestis Industrial has broken down the barriers again!
Introducing our new Shaftless Pay-offs & Take-up series.***

For years, the wire & cable circuit size manufacturing needs have been ignored until now. Our powered shaftless series Pay-offs and Take-ups are efficient and “Huestis rugged” featuring a small footprint allowing the customer to install them where manufacturing space is at a premium. They are capable of handling package sizes from a 12 inch spool up to a 36 inch reel as well as weights up to 2,500 pounds. Offered with multiple options and possibilities, tailored to the customer's needs. Pneumatic, hydraulic, and electric versions are available allowing customers to define the solution that will work best for their manufacturing processes. Call now for more information and see how Huestis Industrial can make the most sense for you.
